

# НАШ ОТВЕТ ИЗМЕНЕНИЮ КЛИМАТА

**Опыт ЕС по разработке и реализации  
местных климатических политик**

# 'From Grey to Green' (Essen, Germany)

Essen has been a key leader in developing and implementing innovative sustainability strategies and initiatives and has leveraged its industrial past into opportunities for the future.

# 'Green' hydrogen steel works (Salzgitter, Germany)

The project symbolizes a milestone on the path to virtually CO<sub>2</sub> free production and demonstrates that fossil fuels can be replaced by intelligent cross-sector linking.

# 'Green Light for Savings' (Czech Republic)

The program is financed by the sale of emission allowances. From 2014 till now, 65,000 recipients received 400 mil. euro subsidies for insulation of the buildings.

**Участие гражданского общества  
в смягчении последствий изменения климата  
в Карагандинской области**
